

## General Release Notes 3/5/2015

Release Title	Release Description	Version
CPC - Add Locations to Lattice Resident Export	With this option enabled, the 4 inmate locations get added to the end of the resident line on the file. The file is comma delimited, so the locations have commas stripped out.	7.0.1237.0
Improved Resident Report Screen	The Resident Report Screen is now compatible with the resolution 1024x768.	7.0.1256.0
Improved Lattice Web Service Interface	The full inmate sync has been removed from the Daily Maintenance functionality (both lockdown and lockdown service). If needed, it can be triggered manually from Programs > Import/Export > Export Pins.	7.0.1258.0
Improved Lattice Web Service Interface	The interface will now include the residents middle name while excluding the residents activation date.	7.0.1258.0
Improved Generic JMS 2 Interface	The Generic JMS 2 Interface can now import photos into Lockdown.	7.0.1259.0
Improved Debit Release Logic	Residents who have a \$0.00 balance can now be issued a debit card in the event that they have phone time to be refunded.	7.0.1260.0
Created Positive Pay Interface	A Positive Pay Interface for First Florida Integrity has been created.	7.0.1261.0
Fixed Lockdown Service Installer	Lockdown can now install services without .NET version 1.1.4322.	7.0.1262.0
Fixed GTL ICM Pin Portal Interface	We removed the error message that generates when a resident has a \$0.00 balance at GTL. This should reduce confusion for the user as no action is required when it	7.0.1263.0
Created Odyssey JMS Interface	Created a JMS Interface for Odyssey	7.0.1266.0
Fixed Bloodhound Interface	The code has been updated so that if the birthday is not a valid date, it will become our default date of 1/1/1900.	7.0.1267.0
Improved Tag Remittance	Tag remittance now allows the facility to remit more than once a day.	7.0.1269.0
Created a Bond Check Comment Text Box	The Receipt Note text will now show up on the Bond Agency Payment Report (Transactions > Bonds > Reports > Bond Agency Payments). If no text is given 'Bond Remittance' will show up on the report.	7.0.1272.0
Fixed Per Diem Reporting	Per Diem reporting no longer removes the Fed ID# on Detail Reports when the option "Remove SSN / DOB from Per Diem Reports" is checked.	7.0.1273.0
Created: Sleuth Interface	Created a JMS Interface for Sleuth Systems	7.0.1275.0
Improved Smart Kiosk Interface	A debt feed has been added to the Smart Kiosk Interface allowing the resident to see their own debt.	7.0.1275.0
Fixed TRIP Debt	The TRIP module now checks debts before sending them and, if the debt is completely paid off, written off, or voided, it will not send the debt.	7.0.1275.0

Improved Checkbook Deposit Amount Display	Reduced the number of conversions used to display the bank deposit amount in the checkbook.	7.0.1275.0
Fixed TRIP Imports	If there isn't a SSN Lockdown should now look up the drivers license number like it was intended to be used.	7.0.1275.0
Created ICS Debit Web Service Interface	A web service interface has been created to allow debit time communication with ICS.	7.0.1276.0
Created OFAC Check To ATM Deposits	ATM Deposits will now OFAC check users before allowing a deposit.	Jail ATM 7.0.1112.8
Created Individual IDology Transactions Checks	A configurable option has been created that runs an IDology check on any bond payment greater than \$3000.	JailATM build 7.0.1112.1
Fixed Cash Terms On ATM	The ATM now displays the correct "Cash Terms" when making a cash deposit.	JailATM v7.0.1112.9
Improved Web Pack User Experience	Web packs now have a functioning shopping cart that shows products by product category.	Lockdown v7.0.1265
Fixed New Account Activations	New account activations can now read collect emails that have been sent prior to the activation of their accounts.	N/A
Fixed Timezone Issues With Resident Kiosks	Residents whose kiosk session ends unexpectedly will no longer lose an hour or more of their daily limit due to the timezone difference between kiosk and server.	N/A
Fixed Manual Approval For Email	Fixed an issue that allowed family members to bypass the manual approval requirement for emails.	N/A
Improved Idology Statuses	Improved Idology Statuses to differentiate between fail and no attempt.	N/A
Improved Pending Contact Requests	An option has been added that can prevent pending contact requests from being displayed on resident kiosks.	N/A
Improved Flag Words	The logic used for Flag Words now searches based on whole words instead of a string of characters. Example: Hello, World instead of HelloWorld.	N/A
Per Minute Billing For Video Visitation	We've added a new feature set that allows Video Calls (Direct Dial Only) to be billed per minute instead of a flat rate.	N/A
Fixed Warehouse Invoicing	We updated the Customer Invoice report to look at the inventory detail tax fields and determine if a line item should be considered taxable instead of using the tax fields in the Pricing List for a particular customer.	N/A
Created Money Transmitter Receipt for Illinois	Added the Money Transmitter Receipt to the website.	N/A

Improved "Onsite Products Only" Option	Onsite Products Only check-box option under Program > Options > Inventory Tab is now password protected.	N/A
Created Velocity Check On Web Deposits	Web deposits are now checked programatically and if a deposit has been made within the last ten minutes another one will not be allowed until the ten minutes have been	N/A
