

General Lockdown Release Notes 7/7/2014

Release Title	Release Description	Version
Corrected Unconfirmed Communications Drafts	Corrected an issue where drafts were showing up in the Message Summary screen on JailATM.com when the recipient was listed as an unconfirmed contact.	N/A
Corrected Call Schedule Error when attempting to Schedule a Call	Corrected an issue where family members would get an error if they attempt to schedule a video call with a resident who is not assigned to a pod kiosk.	N/A
Added GUID Reference for Archived Visitation Files	JailATM.com now displays the GUID reference for archived/missing video visitation files.	N/A
Corrected Bulk Order Cache Issue	Corrected an issue where if an error is thrown while posting a Bulk Order at the warehouse, inventory numbers become inaccurate. Contact Tech Friends to correct any discrepancies.	7.0.1115.0
Zuercher Event Log Message Fix	Corrected an issue where the Zuercher interface inaccurately logged the number of updated accounts to the Windows Event Viewer.	7.0.1120.0
Resident Detail List	The Resident Detail List generates a report for each resident and adds a line for every day the resident has ordered something, within the time span selected. As an example if the resident has orders on 3 different days between 9th and the 27th the report will show the total ordered and then the sub total for each day with their corresponding dates	7.0.1109.0
Corrected Kiosk Entry Button Issue for Bond Payments	Corrected issue where the Kiosk Entry button did not function as expected on the Residents > Bond Tab.	7.0.1109.0
Interface Changes: Police Central 2 & Cash Bond	Added a toggle that allows the user to switch between new and old format for Police Central 2 Modified Cash Bond to look for booking id instead of resident id	7.0.1120.0
Lexis Nexis Pod Kiosk Integration	Added the ability to use the Lexis Nexis Law Library on the pod kiosks. The pod kiosk shell will need to be upgraded on each pod kiosk using this feature.	N/A
Added Coin Counts to Cash Drawer Report	Added Coin Counts and Manual Entry numbers to Cash Drawer report for Booking Kiosks.	7.0.1120.0
Added DaPro Sync Interface	The new DaPro Sync Interface works just like the DaPro Interface, but will close resident accounts who do not have a balance.	7.0.1115.0

GTL VACI Interface Change	The GTL VACI phone interface no longer sends an update after releasing a resident.	7.0.1120.0
Added PayMyJailer Debt Export	Added a debt export for PayMyJailer.	7.0.1110.0
Added Full Sync Capabilities to EZMar JMS Interface	Added the ability to accept a "complete" file with a full roster update for the EZMar JMS Interface.	7.0.1120.0
Houston Generic Interface Release Regardless of Balance	Updated interface to release residents regardless of whether or not they have a balance.	7.0.1109.0
Shrunk Out of Stock Column on Pricelist Screen	Corrected an issue where the "Out of Stock" column was unusually large on the pricelist screen.	7.0.1112.0
Corrected Securus Debit Time Refunding Issue	Corrected an issue where debit refunds could be credited \$.01 less than expected. This was due to rounding.	7.0.1112.0
