Release Notes
July 07 2015

These Release Notes are intended for users and administrators of Lockdown and JailATM.com. They provide you with information about Lockdown and JailATM.com updates, including the new features of this release and important changes since the previous one.

We recommend that you read this document before installing and using Lockdown.

This document may be updated after it is released.

New This Release

8.0.75.0   **Uwharrie Bank Positive Pay export**
We now have a positive pay export for Uwharrie Bank.

Enhancements

8.0.77.0   **Optional Web Deposit Delay**
There is a new option to not import web deposit files until they are x minutes old.

8.0.76.0   **Debit Card ACH Imports Get Slower Over Time.**
Over time, the increasing number of debit card releases puts a strain on Lockdown that results in extended delays in everyday Lockdown use. This process has been improved by changing the logic on how Lockdown handles debit card ACH imports.

WEB   **Improve Email Deliverability**
Removed special characters from all emails to family members. This should reduce the chance of our emails getting blocked by spam filters.

Fixed Known Issues

8.0.72.0   **Mass Credit Issue & Deactivation Issue With Credit Reasons**

Fixed an issue where facilities without credit reasons would null reference error while trying to use mass credits. Also, fixed an issue that prevents the user from correctly deactivating a credit reason.

8.0.81.0   **Product Imports Now Create Pricing**
If pricing is not found on an existing product it will create the pricing during an import.

8.0.79.0   **Generic JMS 2 Update**
The JMS will now only look up inmates based off of Inmate ID and it will now throw an exception if it has a problem updating the record. You can now use the global options for closing accounts.

WEB   **Workflow Interaction Report - Header On Wrong Page**
Fixed an issue where the report would show the header and previous footer on the wrong page.

WEB   **Fixed Workflow Report Shows Blank Page On First Page On Lengthy Workflows**
Fixed an issue where the Workflow Report would show a blank page on the first page if the first workflow was long.

WEB   **Fixed Web Pack Restrictions Conversion To UTC**
Fixed an issue where restrictions were not working due to a UTC conversion.

WEB   **Workflow Times Display In UTC On Kiosks**
Kiosks now displays Workflow times correctly.
